2019 Belknap County 4-H Fair Dedication Brian and Kathy DeNutte

Welcome to the 2019 Belknap County 4-H Fair. Our amazing board members and volunteers have been working all year to make the 76th fair a huge success! We pride ourselves on being the only 4-H fair in New Hampshire! The Belknap County 4-H Fair plays an important role in the growth and development of 4-H youth. The fair allows youth to showcase their projects and learning, in return for encouraging and motivating feedback to promote continued growth and development. Youth also share their learning with the public while learning from others.

It is a pleasure and honor to dedicate the 2019 Belknap County 4-H Fair to Brian and Kathy DeNutte. Brian serves as the Vice-President of the 4-H Fair Board. Brian also helps to maintain and improve the fairgrounds. He mows the lawn and does general maintenance and upkeep. He also volunteers for fundraisers throughout the year. Brian can often be found saying, “It’s all for the kids.”

Kathy DeNutte serves as the secretary for both the fair board and the Belknap County 4-H Foundation. She organizes many fundraisers and not only donates her time but supplies. Brian and Kathy’s dedication to community, volunteerism and hard work exemplifies the 4-H motto, “Make the Best Better.”

NAME	Betsy Blueberry	
CLUB	Garden 4-H	AGE 11
CLASS	C	DIV. 2
ARTICLE	Charcoal drawing	
NUMBER OF YEARS IN THIS PROJECT	2	
A	B	C

This is a sample card. Please notice how it has:

- the 4-H Exhibitor’s full name
- club
- 4-H age (as of January 1, 2019).

The tag also has:

- the Class and the Division- which can be found in this document
- article name
- number of years in this project

It is very important to fill out each space in the two part card and not to separate the two parts. The judge will need all of this information for judging.

- Projects or articles exhibited in 4-H classes must represent 4-H project work done since June 1 of last year and articles not previously exhibited at the Fair. All entries are exhibited at member’s own risk
- Members 8 – 18 will receive awards as well as premium money. Awards are according to the Danish System (page 22). Unless your exhibit and/or article was judged in the wrong Division or Class, ALL JUDGE’S DECISIONS ARE FINAL.
- Exhibitors entering an article in any “advanced” division must display a 3 x 5 card describing construction, creative techniques used, work done and number of hours to complete the project. Failure to do so will result in loss of points.
- Projects entered should be of good quality and show the member’s ability and talent appropriate to age level. Projects not making satisfactory exhibits may be disqualified.

The Danish System

In 4-H, the focus is on 4-H youth. Projects and records help young people develop skills, gain knowledge, and build confidence. Most judging in 4-H involves the Danish system of judging. In this system, the judges' evaluation is made against a standard. A scores sheet is used and a judge looks to see whether requirements are met.

One advantage of this system is that everyone whose work fulfills minimum qualifications can receive a ribbon. If all entries are judged to be excellent, all will receive a blue ribbon. The purpose of the Danish judging system is to give every 4-H member the recognition he or she deserves for the work that was one. This helps youth recognize the need to improve their skills and to “make the best better.”

- Blue Ribbon (A) Excellent. A blue ribbon indicates a certain degree of excellence that exceeds the average expectation and may be given to a large number of participants.
- Red Ribbon (B) Good. A red ribbon is awarded to those entries that meet the average standard.
- White Ribbon (C) Fair. A white ribbon is awarded to those entries that do not quite meet the average standard.

Special award ribbons may be given to an article or exhibit that the respective judge feels is an outstanding project. Unless an exhibit and/or article was judged in the wrong Division or Class.

ALL JUDGE'S DECISIONS ARE FINAL.

Criteria used for judging 4-Her's work:

- Item is well made, constructed or grown.
- Item can serve purpose for which it is intended.
- Appropriate materials or ingredients where chosen for creating the item.
- Item is appropriately displayed and properly labeled (if applicable).

- Work shows mastery of techniques.
- Level of detail reflects age, ability, and years in project.

4-H ANIMAL SHOW ENTRY RULES and REGULATIONS

1. Competition is limited to youth ages 8-18, on January 1st, for livestock including Beef, Dairy, Dog, Horse and Pony, Dairy Goats, Working Steer, Sheep, Poultry, Rabbits/Cavies, and/or Swine.
2. Members 5 to 8 by January 1st may show rabbits and poultry.
3. Exhibits must be part of a 4-H project for the year 2018 – 2019.
4. 4-H animal shows are open to all NH counties, as space allows.
5. Each species of animal must be entered on a separate entry form (page 63).
6. A Belknap County 4-H Fair Expectation Statement (page 64) shall be submitted with animal entry forms.
7. All show entry forms are due by July 15. Submit entries to: 4-H Extension, 64 Court Street, Laconia NH 03246 or email to Giegie.marrone@unh.edu.
8. Exhibitors 10 and older will be sent two 4-H Fair passes upon receipt of entry form. Exhibitors under 10 will receive one pass.
9. Entries must be checked in and out of fairgrounds with the respective Livestock Superintendent and placed as directed by the Superintendent.
10. Each 4-H animal exhibitor must have a copy of their current animal approval forms, proof of rabies vaccination, exhibitor medical forms, and code of conduct. Exhibitors with missing forms will be asked to remove their animals from the fairgrounds.
11. All animals showing signs of disease require that the herd must be removed from the fairgrounds property. Animals not having

proper papers will also be sent home. All animals entered in shows or an exhibit must have proof of rabies inoculation as recommended by the N.H. State Veterinarian.

12. No animals under 4 months of age are allowed to *show* (with the exception of poultry).
13. Each species of animals (with the exception of dairy goats) will be allowed to have one *demonstration* of suckling animals. The superintendent of each species will determine the demonstration of suckling animals.
14. Arrival: Animals arriving on Friday night must be on the grounds, checked in by the superintendent and vehicles moved to the general parking area by 8:00 pm. No late arrivals allowed.
Animals arriving on Saturday and/or Sunday need to be on the grounds by 8:00 am. Dairy, Beef, Swine, Poultry, Rabbit/Cavy, Dairy Goats, Sheep and Working Steers must remain on the grounds until excused by the Show Superintendents on Sunday, after the awards ceremony. Dogs may leave when excused by the Superintendent on Saturday. Excused dogs and equipment must be walked to the parking lot.
15. Dismissal: All animals (other than dog) are not to be dismissed by the Superintendent before 5:00 pm Sunday and after the awards ceremony. Exhibitors will be dismissed based on length of travel home with those having the farthest to travel being dismissed first.
16. Each exhibitor must exhibit his or her own animal except by permission of the Superintendent of each show, in which case it may be shown by another 4-H member. No adults may be allowed to assist with the preparing of the animal on the Fairgrounds before the time of the showing. For efficiency purposes during the show, in the absence of another available 4-H member, adults may assist with holding an animal. Any member violating this rule, after one warning, will be barred from the show.
17. Dress code for 4-H Livestock Exhibitors for all show classes:

neatly and cleanly dressed with appropriate white, khaki, or tan pants or skirts (no jeans), white 4-H shirt or blouse. Shirts with farm or corporate names are not allowed in the show ring. Closed toed shoes. Please see specific species for clothing used for each species.

18. Youth will wear appropriate attire at all times while on the fairgrounds. Sturdy, closed- toe, safe shoes are expected. No garments advertising any alcohol or drug products. No midriffs showing and no garments considered underwear worn as outer wear.
19. Care of Livestock: Member must care for their own animals. Feed must be provided by members. Each member is responsible for cleaning out area occupied by animal(s) at the end of the show. All manure is to be placed in specific areas. Animal responsibility is essential. If a Superintendent feels an animal is being neglected, they or the 4-H Fair Board can disqualify the exhibitor.
20. The fair will have very limited bedding available on a first come – first served basis. To ensure your animal’s comfort and cleanliness exhibitors are strongly encouraged to bring their own bedding for their animals.
21. Fitting and Showmanship is **mandatory** and will be the first division judged in each class. It will start promptly and will be closed to those who are late. The animals must be fitted and shown by the exhibitor. Failure to show in this class results in no premiums for any class.
22. Direct criticism or interference with the judge or fair/show officials (by exhibitors or parents/guardians) before, during, or after the competitive event is prohibited. Prior accommodations have been made to insure the inclusion of all youth. Please respect the judgement of our superintendents, staff, and show judges. All judges and fair/show officials shall be treated with courtesy, cooperation, and respect.
23. All exhibit areas must be left clean. Any exhibitors failing to

clean their area will forfeit their premiums.

24. 4-H Herdsperson: Judged on cleanliness of stalls, general appearance of animals, good livestock husbandry, sportsmanship, and attendance by 4-H Exhibitors.
25. Educational Poster: 4-H Livestock Exhibitors may create an educational poster (14" by 22") and hang in their area. The poster should teach the public something about their species.

Health Regulations for 2019 New Hampshire Fairs and Shows

FROM: Dr. Stephen K. Crawford, State Veterinarian

SEC. I. Certificate of Veterinary Inspection: All cattle, sheep, goats, swine, equine, camelids (llamas & alpacas), poultry and ratites entering the State of New Hampshire from other states must be accompanied by a Certificate of Veterinary Inspection signed by an Accredited Veterinarian. This Certificate of Veterinary Inspection(CVI)shall indicate the health status of the animals, poultry and other species involved, including results of any required tests and a statement that the animals are not known to be infected with or exposed to any infectious or contagious disease. Per regulation Agr 2103.07, "Any livestock entering the state from Connecticut, Maine, Massachusetts, Rhode Island or Vermont for the purpose of participating in one of the member fairs of the New Hampshire Association of Fairs and Expositions between July 1 and October 31 shall be accompanied by a CVI issued by an accredited veterinarian in the state of origin. The CVI shall be valid for a period not to exceed 180 days, when the CVI:(1) Was issued on or after April 1 of that year;(2) Lists individual official identification for all animals thereon;(3) Includes all required test results for the animals thereon;(4) States "New England Fair season" as the consignee; and (5) Has an attachment listing the name and dates of each fair at which the animals have been in attendance." **Be sure to check with any other state that you are entering as their requirements may differ slightly.**

If an animal has been excluded from exhibition for any reason since the CVI was issued, the excluded animal will need a new CVI prior to its

next fair. **Exhibitors must check with each state they plan to enter to ensure that they have met that state's import requirements.**

SEC. II. Permanent, official Identification: All cattle, sheep, goats, swine, camelids, cervidae, poultry, and ratites must be individually identified by permanent, official metal or plastic tag, legible tattoo or microchip (providing a reader is available).

SEC. III. Permit for Entry: Ratites, Camelids, Swine and/or Poultry: Prior permit must be obtained and the number must appear on the Certificate of Veterinary Inspection. Permits may be obtained by calling: (603) 271-2404 Monday through Friday between the hours of 8:00 am - 4:00 p.m.

A. GENERAL GUIDELINES

- a. All animals must be in appropriate physical condition, be properly identified and be free of visual evidence of infectious, contagious or parasitic disease at time of arrival. Specific diseases and conditions which will disqualify an animal for entry are identified for each species in the following sections of the rules. Animals of any species with open or draining wounds should not be approved for entry.
- b. REMINDER: ALL sheep and goats of any age or sex brought to show or exhibition from either out of state or within state must possess a USDA approved individual identification tag, tattoo, or electronic implant consistent with the requirements of the Federal Scrapie Eradication Program. Information on approved tags, tattoos and electronic implants is available from the New Hampshire Department of Agriculture, Markets, and Food at 603-271-2404 or from the USDA APHIS office in Sutton, MA at 508-865-1421.
- c. All livestock must have proper, official identification. For animals identified by microchip, readers should be available at the fairgrounds.
- d. SEE INDIVIDUAL REQUIREMENTS FOR EACH SPECIES LISTED BELOW.
- e. IMPORTANT NOTE: It shall be the responsibility of show superintendents to eject each animal showing indications of contagious disease.

B. EXHIBITOR SELF-CERTIFICATION

a. There have been documented associations between swine and human illnesses at several fairs in New England over the past few years. The risk of future occurrences of animal-human disease transmission at fairs is real and carries potentially severe consequences. As such, the department believes it very important to assure that every animal entering a fairground is checked by a fair authority to assure it is in good condition upon arrival. In order to improve exhibitor ownership and recognition of their responsibility to the protection of human and animal health at the fair, the department encourages all fairs to use the Fair Exhibitor's Self-Certification of Animal Health. This does not supersede any of the guidelines or requirements contained herein. As noted above, this also should not replace fair personnel or a veterinarian in the process of checking animals into the fair. Rather, it is intended to both improve the efficiency of the check-in process and make exhibitor's more aware of and accountable for the health status of their animals throughout the entire fair season. If necessary, this system should also allow for a more rapid trace back to the source of a disease incident. This assessment and certification should be completed no more than 24 hours prior to the animal(s) entering the fair grounds. At the time of entry, it should be reviewed, along with each animal, by the party responsible for checking animals into the fair. The department encourages and strongly supports any efforts by each fair to adopt the completion of said certificate by all exhibitors as a necessary entrance requirement. The certificate should be kept with the animals and should be available for review at any time by fair personnel.

C. RABIES RECOMMENDATIONS:

a. The State Veterinarian recommends that all domestic animals should be immunized for rabies at least 30 days before attending the fairs. Domestic animals that do not have a licensed rabies immunization available(i.e., rabbits, pigs, and goats) may be immunized "extra-label". They can still receive the rabies shot but would not be recognized as an immunized animal. It is highly recommended that all animals displayed at the fairs be restrained in a manner that would not allow the public to be bitten or exposed to saliva. Rabies vaccines for show participants should be administered by a licensed veterinarian so as to assure the efficacious handling and administration of the vaccine.

D. RINGWORM:

a. Ringworm infection or any condition consistent with ringworm infection should exclude an animal from exhibition. An exception could be made for an animal which has been under the treatment of a veterinarian for the ringworm infection for at least 21 days when the veterinarian certifies in writing that duration of treatment and that the lesion is no longer infectious to other livestock or humans. This is a reasonable manner in which to mitigate risks to animal and public health from a relatively common disease condition without excluding excessive numbers of animals. Exhibitors should be made aware of the need to consult a veterinarian well in advance to arrange treatment sufficient to meet this standard

E. CATTLE:

a. New Hampshire Animals-See Sec. II, Permanent Identification required. All cattle must originate from non-quarantined Tuberculosis negative herds and Brucellosis negative herds under state supervision. Each exhibition may establish additional requirements at their discretion.

b. Out-of-State Animals-See Sec. I and II. Certificate of Veterinary Inspection and Permanent Identification required. All cattle originating from Tuberculosis accredited-free and Brucellosis classified-free states and Canadian provinces may enter the state of New Hampshire without testing. Cattle not originating from Tuberculosis accredited-free and Brucellosis classified-free states and Canadian provinces must meet the following requirements:

i. All cattle must originate from Tuberculosis negative and Brucellosis negative, non-quarantined herds and must have been tested within 30 days for Brucellosis and within 60 days to Tuberculosis prior to entry for the first show of the current season.

ii. Cattle under 18 months of age which are official vaccinates may enter New Hampshire without a Brucellosis test, but the Certificate of Veterinary Inspection must show a record of such vaccination.

iii. Calves under 179 days of age from Tuberculin negative herds under supervision tested within one year may enter the state without a test, if properly identified as progeny of a tuberculin tested dam.

F.STEERS, SPAYED HEIFERS & OXEN must meet the same requirements as stated above for Tuberculosis. No Brucellosis requirement.

G. GOATS:

a. New Hampshire Animals-See Sec. II, Permanent Identification required. All goats must originate from non-quarantined herds and be clinically free from infectious and communicable diseases including lymphadenitis, staphylococcal infection, foot rot, contagious ecthyma (sore mouth), scabies or scrapie; nor shall they be progeny of goats known to be infected with scrapie.

b. Out-of-State Animals-See Sec. I and II. Certificate of Veterinary Inspection and Permanent Identification required. All goats originating from Tuberculosis accredited-free and Brucellosis classified-free states and Canadian provinces may enter the state of New Hampshire without testing. Goats not originating from Tuberculosis accredited-free and Brucellosis classified-free states and Canadian provinces must meet the following requirements:

i. All goats 6 months of age or older must originate from non-quarantined, Tuberculosis negative and Brucellosis negative herds and must have been tested within 30 days for Brucellosis and within 60 days to Tuberculosis prior to entry for the first show of the current season.

ii. All goats under 6 months of age must be identified as progeny of a negative Brucellosis and Tuberculosis tested dam.

iii. All goats must be clinically free from all other infectious and communicable diseases including lymphadenitis, staphylococcal infection, foot rot, contagious ecthyma (sore mouth), scabies or scrapie, and shall not be progeny of goats known to be infected with scrapie.

c. Goats Enrolled in the Voluntary Scrapie Program-In order to lower the risk of scrapie transmission, goat herds that are enrolled in the scrapie eradication program should follow the following guidelines:

i. Be kept separate from non-enrolled goats by a vacant pen, a barn alley, or a solid physical barrier (such as metal, wood, canvas) sufficient to prevent any physical contact between enrolled and non-enrolled goats.

ii. Limit contacts in the show or sales ring to minimize risk of scrapie transmission. These contacts take place between animals off the herd's premises and not during or immediately after kidding. Limited contacts do not include commingling, which means the grouping of animals together with free physical contact.

d. Prevent contact with kidding animals at exhibits or sales. Kidding increases the exposure potential.

H. SWINE:

a. New Hampshire Animals-See Sec. II, Permanent Identification required. All swine must originate from non-quarantined, Brucellosis and Pseudorabies Free herds and be clinically free from all other infectious and communicable diseases.

b. Out-of-State Animals-See Sec. I, II and III, Certificate of Veterinary Inspection, Permanent Identification and Permit required. All swine shall be Brucellosis Validated or progeny of non-quarantined Brucellosis Validated herd or originate from a validated Brucellosis-free state. All swine shall have a Pseudo-rabies (PRV) negative test within 30 days of entry or originate from a Qualified Pseudorabies Negative herd or Pseudorabies class IV or free state.

I. SHEEP:

a. New Hampshire Animals-See Sec. II, Permanent Identification required. All sheep must originate from a non-quarantined flock and animals must not have been exposed to scrapie, scabies or any other contagious or infectious disease, and shall not be the direct progeny (first generation) of any animal diagnosed as having scrapie.

b. Out-of-State Animals-See Sec. I and II. Certificate of Veterinary Inspection and permanent identification required. All sheep must originate from an inspected, non-quarantined flock; the Certificate of Veterinary Inspection shall state that the animals have not been exposed to scrapie, scabies or any other contagious or infectious disease; and the animal shall not be the progeny of a sire or dam that was infected with scrapie.

c. Sheep Enrolled in the Voluntary Scrapie Program-In order to lower the risk of scrapie transmission, sheep flocks that are enrolled in the scrapie eradication program should follow the following guidelines:

i. Be kept separate from non-enrolled sheep by a vacant pen, a barn alley, or a solid physical barrier (such as metal, wood, canvas) sufficient to prevent any physical contact between enrolled and non-enrolled sheep.

ii. Limit contacts in the show or sales ring to minimize risk of scrapie transmission. These contacts take place between animals off the flock's premises and not during or immediately after lambing. Limited contacts do not include commingling, which means the grouping of animals together with free physical contact.

iii. Prevent contact with lambing animals at exhibits or sales. Lambing increases the exposure potential.

J. HORSES:

a. New Hampshire Animals—A negative USDA-approved Equine Infectious Anemia (EIA) test (i.e. Coggins or ELISA) within the previous twelve months is recommended.

b. Out-of-State Animals—See Sec. I. Certificate of Veterinary Inspection required. All equines entering the State of New Hampshire must be accompanied by a valid negative A.G.I.D. or ELISA (Coggins) test for Equine Infectious Anemia conducted within twelvemonths prior to entry. Entry permit not required.

NOTE: It is strongly recommended that Show Management examine health certificates and EIA test papers for all horses. It is also recommended that all horses have EEE, tetanus, and equine herpes virus vaccines no less than 14 days and no more than one year prior to the date of the fair in addition to the rabies vaccine.

K. POULTRY:

a. New Hampshire Poultry—All poultry over 5 months of age must have been tested within one year for, and found negative to Salmonella Pullorum and avian influenza, must be identified by official leg band and must be progeny of Pullorum clean stock, and must be free of all clinical evidence of infectious and contagious diseases and exposure thereto.

b. Out-of-State Poultry—See Sec. I, II and III. Certificate of Veterinary Inspection or NPIP VS Form 9-3 and Permit required. All poultry over 5 months of age must have been tested within 10 days for, and found negative to Salmonella Pullorum and avian influenza and must be identified by official leg band. All poultry under 5 months must be progeny of avian influenza and Pullorum clean stock and free of all infectious and contagious diseases and exposure thereto.

L.CERVIDAE, CAMELIDS AND BISON:

- a. New Hampshire Animals-All cervidae, camelids and bison must originate from non-quarantined herds.
- b. Out-of-State Animals-See Sec. I, II and III. Certificate of Veterinary Inspection, Permanent Identification and Permit required. Camelids and bison must have a negative Brucellosis test within 30 days prior to the first show of the season and a negative Tuberculosis test within 60 days prior to the first show of the season.

NOTE: No cervids may enter the state of New Hampshire for show purposes due to the threat of Chronic Wasting Disease(CWD).

M. RATITE(emu, rhea, ostrich, moa, kiwi and cassowary):

- a. New Hampshire Animals-All ratites must originate from a non-quarantined, Avian Influenza tested negative flock.
- b. Out-of-State Animals-See Sec. I, II and III. Certificate of Veterinary Inspection, Permanent Identification and Permit required. All ratites must have been tested negative to pathological strains of Avian Influenza within 10 days of the fair.

N. BIO-SECURITY:

- a. When exhibiting animals at the fairs or shows, bring your own shovels, forks, brooms and wheel barrows for your personal use and do not allow them to be used by others. Disinfect all of the hand tools, including the wheel barrows, feed tubs and your boots and shoes before going back to the farm.
- b. Consider isolating all animals returning to your farm from the animals left at home for a period of time to minimize transmission of diseases that may have been picked up at the show.
- c. Do not allow the public to walk in the feed areas and do not allow manure contamination of the feed or feeding areas.
- d. There are many diseases, such as Johnes, E. Coli, Salmonella, etc., that can be spread at fairs and brought back to the farm. Do your best to prevent the spread of these and other organisms

CLASS AA: POULTRY

Superintendent: Kara Hewes (603) 998-3107

Show Time: Saturday, 1 p.m.

All poultry must be caged by 8:00 a.m. on Saturday and remain

CLASS JJ – RABBIT AND CAVY
Superintendent: Kara Hewes (603) 998-3107
Showtime: Sunday, 12 NOON

All 4-H animals must be caged by 8:00 a.m. on Saturday and remain until release time at 5:00 p.m. Sunday, or until excused by Superintendent, after the awards ceremony. Cages are available on a first-come, first-serve basis. Exhibitors must supply their own feed, bedding, food dish and water bowl. Members are responsible for feeding and watering their own animals during the fair. For the safety of the animals and fair goers, all animals **MUST** remain in their cage unless preparing for fit & show or judging. **Anyone who does not care for their animals, or does not clean the animal's cage at the end of the Fair, will forfeit premiums.**

Double entry tickets are not required. Special cards for rabbit and cavy exhibits will be available at the Rabbit and Cavy Building. Rabbit and Cavy classes will be judged separately for each species. Only one animal of each breed, per member, are allowed in each division.

All participants exhibiting must participate in their appropriate quiz. Animals must be clean and have nails clipped. Members must be available to show their own animals. Dress code for 4-H Exhibitors for all show classes: neatly and cleanly dressed with appropriate white, khaki, or tan pants or skirts (no jeans), white 4-H shirt or blouse. Shirts with farm or corporate names are not allowed in the show ring. Closed toed shoes.

Entry forms (page 63) and 4-H Fair Expectation Statement (page 64) must be received by July 15 to Belknap County 4-H Office, 64 Court Street, Laconia, NH 03246 or by email to Giegie.marrone@unh.edu

Whole-grain Banana Bread

Batter

- 2 cups thoroughly mashed banana; about 4 or 5 medium bananas
- 1/2 cup vegetable oil
- 1 cup brown sugar
- 2 large eggs
- 1 teaspoon vanilla extract
- 1 cup **King Arthur Unbleached All-Purpose Flour**
- 1 cup **King Arthur White Whole Wheat Flour or Premium Whole Wheat Flour**
- 1 teaspoon baking soda
- 1/2 teaspoon baking powder
- 3/4 teaspoon salt
- 1 teaspoon ground cinnamon

Topping: 1 T. of sugar and ½ t of cinnamon

Instructions

1. Preheat the oven to 350°F with a rack in the center position. Lightly grease a 9" x 5" loaf pan; if your pan is glass or stoneware, reduce the oven temperature to 325°F.
2. In a large bowl, stir together the mashed banana, oil, sugar, eggs, and vanilla.
3. Measure the flours by gently spooning them into a cup, then sweeping off any excess. Mix the flours, baking soda, baking powder, salt, cinnamon, and chopped walnuts into the banana mixture. Scrape the bottom and sides of the bowl and mix again to thoroughly combine the ingredients.
4. Scoop the batter into the prepared pan. Mix together the sugar and cinnamon, and sprinkle over the batter.
5. Bake the bread for about 60 to 75 minutes, until the bread feels set on the top, and a paring knife (or other thin knife) inserted into the center comes out clean, or with just a few moist crumbs (but no wet batter). If you have a digital thermometer, the bread's temperature at the center should register about 205°F. If the bread appears to be browning too quickly, tent it with aluminum foil for the final 15 to 20 minutes of baking.

Note: If baking in a glass or stoneware pan, increase the baking time by 10 to 15 minutes.

6. Remove the bread from the oven. Cool it in the pan for 15 minutes, then loosen the edges, and turn it out of the pan onto a rack to cool completely.
7. Store leftover bread, tightly wrapped, at room temperature for several days. Freeze for longer storage
